FWJ1926

In 1926, Benjamin Russell Jr. redefined athletic wear by replacing itchy wool jerseys with the first all-cotton sweatshirt. The FWJ1926 "Benjamin" pays tribute to that game-changing moment with a modern, sustainable twist.

Made from 100% recycled materials and GRS certified, this 9.5 oz fleece offers warmth, structure, and all-day comfort. Vintage-inspired details like a bound rib collar, self-fabric v-notch, and ribbed cuffs complete the look. A timeless fit built for then, now, and next.

Fabric:

55% Recycled Cotton

RECYCLED
AND UNDYED

Textile waste is the start, not the end, for Fairweather Johnson. We collect post-industrial and post-consumer waste, sort it by color, chop it into pieces, and blend it to create recycled yarn without dyeing or excessive water use. The yarn is then knitted into the fabrics in our apparel collection. Fairweather Johnson offers a sustainable, closed-loop production solution.
